QUALITY POLICY

PURPOSE

State the commitment and direction for priority of high quality.

RELEVANT TO

All personnel within MMT Group AB

CONTENT

MMT performs operations and services in such a way that the impact on the environment is minimised, in compliance with current legal requirements and other demands to which our organisation is subject.

MMT constantly seeks to be one of the best product suppliers in the area of Marine Survey and ROV inspection.

Employee competence, workmanship and HSE will always be given the highest priority. Our customers shall always experience on vessels, equipment, standards and effectiveness that outperform our competitors.

Fundamental to the successful fulfilment of these objectives is our striving to make continuous improvements in order to meet the customer's expectations and requirements and our maintaining an open and positive dialogue in all respects. Each individual within the company is encouraged to take on responsibility and to participate in the development of new solutions for a better product.

Measure the difference!

Per-Olof Sverlinger, MMT CEO
